About Me

I create experimental yet buildable systems that challenge norms and balance clarity with a touch of strangeness. My work is functional, replicable, and future-oriented, designed to provoke curiosity and art.

My Experiences

Server at Mt Fuji Sushi and Hibachi
2020-2026
Managed high guest volume in a fast-paced environment by juggling orders, payments, and customer needs simultaneously, ensuring accuracy under pressure. Increased faster table turnover while consistently receiving positive guest feedback.

Soccer Player for Saint Andrews FC
2021
Competed professionally in Barcelona, Spain, overcoming a language barrier through adaptability and nonverbal communication, strengthening team cohesion and contributing to a near-perfect win rate.

Graphic Designer for Flatirons Church Home-Group
2024
Designed a custom logo and three promo graphics for church events, turning abstract values into clean, modern visuals and improving brand consistency and engagement.

Barista & Team Lead at The Alley Boba
2022-2023
Contributed to pre-opening operations months ahead of the grand opening, supporting store setup, workflow planning, and staff training. Rotated across front-of-house, drink prep, and kitchen roles to stabilize service during peak hours, reducing onboarding time and improving operational efficiency in a high-traffic launch environment.
